RECEIVED

JAN 15 2015

DIV. OF OIL, GAS & MINING

Included you will find a signed and notarized copy of the Small Mine Contract (*new name - **New Start Mine**) and W9, a location map of the area (@ approximately 4382 North 4450 East), a working map with proposed numbered units - I propose to work from the oldest disturbance to youngest in an orderly fashion completing one then moving on to the next. Starting at Unit #1, Dirt work 95% done, Mostly reseeding (it has been reseeded with rabbit brush and grass). Unit #2, Dirt Work 75% done, reseeding with rabbit brush and grass). Unit #3, Dirt work, Less than 50% done, reseeding (rabbit brush and grass). Unit #4, Dirt work 50% done, reseeding (rabbit brush and grass). Unit #5, dirt work 65% done, reseeding. Unit #6, Still has surface rock needs removal, dirt work, reseeding (middle of an alfalfa field, will be reseeded with grass - alfalfa mix.) Unit #7 - haul roads and a wash, plus the area from the railroad grade to the east needs to be regraded, the wash will be rip rapped and filled in with fine rock). Unit #8 - the last disturbance, three large mounds of dirt, gravel, and rock. Three large holes in the earth. Dirt work 10% done and reseeding. (Units 4 & 5; will be reseeded with a alfalfa grass mix not sure if this will work, this area could be irrigated but the dirt is so poor).

I trust this will meet your satisfaction, if not you will be able to contact me at the following: brothers@cut.net, cell phone 435-469-0890, office 435-462-3258, home phone 435-462-3116. I will be leaving for a short vacation on or around 1/17/2015, at which time I will be available on my cell only, you may leave a message with the Asst manager Sammi Brothersen/Adam Brothersen, at the office phone.

Boyd A. Brothersen
